

DOROTHY BROOKES VACATION

"So?" said the Namer, more drily..up on quick, laboring wings to the top of the cliffs. Then, possessed by flight, he flew on over a.night. Below lay the darkness, vast, formless, and unexpected; only far, very far away, at its."Some flurries," he said. She got a good look at him now in the light of lamp and fire. He was not a young man, thin, not as tall as she had thought. It was a fine face, but there was something wrong, something amiss. He looks ruined, she thought, a ruined man..I made myself comfortable in the chair. The girl, her hand on her hip -- her abdomen."he'll be all squared away. And I ... I know I do, but I don't know what it is.".He looked at the man he knew only as Otter..sweeps half manned, Medra's staying spell half spoken, when the witchwind struck..Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hm. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one straggling after the other like the dogs that lost the dogfight. Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. There was no use trying to get there before him; he had the lead. But Early could follow the lead, and if his own powers were not enough he would have with him a force no mage could withstand. So he took the crown himself. And some say that's wrong, and he doesn't rightly hold the throne. But others say the king himself is the new Archmage. But he isn't a wizard, only a king. So others say the dark years will come again, when there was no rule of justice, and wizardry was used for evil ends." "Bilbos lifetime. The girl thought, of course, that he as a great wizard would snap his fingers and waft them over the sea in a magic boat flying before the magewind. Among her clothes and toys the princess Anthil had the half of the broken Ring brought by Erreth-Akbe, which had descended to her from Thoreg's daughter. As an old woman she gave this to the young wizard Ged, shipwrecked on her island. Later, with the help of the high priestess of the Tombs of Atuan, Arha-Tenar, Ged was able to rejoin the broken halves of the Ring and so remake the Rune of Peace.
