When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore and cast no shadow, she knew it. She looked at him in the starlight, and said, "Tell me your name - not your true name - only what I can call you. When I think of you." "Beginnings," said Tern. "Maybe you can find that island," said Ayo. They set off along the wharves, asking for a ship bound south that might take a wizard and his prentice to the Isle of the Wise, and soon enough they found a heavy trader bound for Wathort, whose master would carry the wizard for goodwill and the prentice for half-price. Even half-price was half the cheese money, but they would have the luxury of a cabin, for Sea Otter was a decked, two-masted ship. stockings on his battered feet and limped into the kitchen. But it doesn't make much difference, after all. Weary, evil dreams of suffocation came to him, but took no hold on him. He breathed deep. He slept at last. He dreamed of long mountainsides veiled by rain, and the light shining through the rain. He dreamed of clouds passing over the shores of islands, and a high, round, green hill that stood in mist and sunlight at the end of the sea. He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures. "No," she said, "only me... But there's a great deal of seeking and finding to be done in the Grove. Enough to keep even you from being restless.
