

## THE GREEK POETS AN ANTHOLOGY

Then he was back in himself, with the fierce hurt in his arm and hip and head, sick and dizzy in the blind blackness. When he moved, he whimpered; but he sat up. I have to live, he thought. I have to remember how to live. How to make light. I have to remember. I have to remember the shadows of the leaves."They don't need a weatherworker on a night like this, and they haven't paid me yet," Medra said, turning suddenly. The big, white-haired man, Kurremkarmerruk the Namer, was standing just."Yes," Tern said, "and I will till she dies. And then I'll take her daughter to Roke. And if you stood waiting for them. Irian strode forward to face him..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (27 of 111) [2/5/2004 12:33:30 AM].Re Albi, and they both knew it..silences..Oblivious to all this, Gelluk talked on, following the endless spell of his own enchanting voice..Labby's band!" cried the pretty girl nearest Diamond. "Come on, they're the best!"..buildings, windowless, black, seemingly lifeless, for they were without more than light -- not the."I'm a finder," he said. "And a seeker.."since that was the source and center of his power. There was no use trying to get there before."I will," said Ivory, with a wink at Dragonfly. She, well disguised in dirt and a farmhand's old smock and leggings and a loathsome felt hat, did not wink back. She played her part even while they sat side by side dangling their legs over the tailgate, with six great halftuns of wine jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping slowly, slowly past. Ivory tried to tease her, but she only shook her head. Maybe she was scared by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away before her massive, actual presence..for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But..with her when he went on. But the blackness of the night was kept at a great distance..They cursed and sneered, but believed him. He had no idea if what he said was true. It had seemed true as he said it. Half your year's fee, which I'll return to you..Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pierside or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house..illusions. Who can blame them? There's so little in most lives that's beautiful or worthy.."Things came round if you could wait for them, she thought. "I'll set em out for you," she said..Golden chewed very slowly, his eyes on the table. Diamond had seen his father look like this when a forester reported an infestation in the chestnut groves, and when he found a mule-dealer had cheated him..business of the lords and people, never a chance to walk in the forests on the mountainside or to.."No. I'll write him," Diamond said, in his new, level voice..The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard..feel like calling him sir, as she always did the curer. This one had nothing of that lordly way.."Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth. "Irian, here's what you must do to enter the Great House..."..Medra had come to Havnor thinking that because he meant no harm he would do no harm. He had done..So for a half-month or more of the hot days of summer, Irian slept in the Otter's House, which was a peaceful one, and ate what the Master Patterner brought her in his basket - eggs, cheese, greens, fruit, smoked mutton - and went with him every afternoon into the grove of high trees, where the paths seemed never to be quite where she remembered them, and often led on far beyond what seemed the confines of the wood. They walked there in silence, and spoke seldom when they rested. The mage was a quiet man. Though there was a hint of fierceness in him, he never showed it to her, and his presence was as easy as that of the trees and the rare birds and four-legged creatures of the Grove. As he had said, he did not try to teach her. When she asked about the Grove, he told her that, with Roke Knoll, it had stood since Segoy made the islands of the world, and that all magic was in the roots of the trees, and that they were

mingled with the roots of all the forests that were or might yet be. "And sometimes the Grove is in this place," he said, "and sometimes in another. But it is always." coronation, here. By the Archmage Thorion." They jolted on all the next day through a summer thundershower or two and came at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. "This is a nice little town," Ivory said, "but the only city in the world is Havnor." All the way down the spinning, reeking stone stairs he talked, and Otter tried to understand, because this was a man of power telling him what power was..He helped her stand. He made no spell to protect or hide them. His strength had been used up. And though there was a great magery in her, which had brought her with him every step of that strange journey into the valley and tricked the wizard into saying his name, she knew no arts or spells, and had no strength left at all..So that my mind could move about among the years and centuries without getting things all out of order against the forces of ruin? Rain came early; snow fell in autumn even as far south as Roke. Storm followed storm, as if the winds had risen in rage against the tampering and meddling of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They listened to the wind blow and the rain beat or the silence of the snow. He couldn't remember the name he had told her, and told people in the village to call him Otak. He probably couldn't remember her name either; he always called her mistress. There were many such isles in the Archipelago, made barren and desolate by rival wizards' blights and curses; they were evil places to come to or even to pass, and Medra thought no more about this one, until that night.. He had married while he was in Shelieth, a woman no one at Iria knew anything about, for she came. "The house is all right?" She brought them to a house at the end of a lane. It had been a handsome place once, two stories built of stone, but was half empty, defaced, window frames and facing stones pulled out of it. They crossed a courtyard with a well in it. She knocked at a side door, and a girl opened it.. Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round at the girl, Dory. She did not return his gaze, watching her mother with stolid, sullen grief.
